Unrest In Hong Kong During Anti-Government Protests

HONG KONG - AUGUST 13: A protester wears a safety helmet and an eye patch in honor of another protester who was shot in the eye during a demonstration at the Hong Kong International Airport on August 13, 2019 in Hong Kong, China.

Pro-democracy protesters have continued rallies on the streets of Hong Kong against a controversial extradition bill since 9 June as the city plunged into crisis after waves of demonstrations and several violent clashes. Hong Kong's Chief Executive Carrie Lam apologized for introducing the bill and declared it "dead", however protesters have continued to draw large crowds with demands for Lam's resignation and complete withdrawal of the bill.

中国政府赶紧释放我无罪的家人!

WE SHOULD ALL BE APPALLED.

Many of our peers are outraged at the treatment of Muslims and other minorities and are speaking up about what's happening. It's disgraceful that our school is accepting hundreds of thousands of dollars every year from the one government responsible for these outrages!

Yes, the Chinese government is the perpetrator of all these crimes and many more. Perhaps you didn't know, but the Chinese government is right here on our campus every single day, and operates under the name, "The Confucius Institute."

This pamphlet is your wake-up call. Regardless of whether you are a progressive, conservative, moderate, or apathetic you need to read this pamphlet and take action if you care about fairness, equality, cooperation, human rights, democracy, or freedom.

CONFUCIUS INSTITUTES: WHAT ARE THEY?

Confucius Institutes are teaching and research centers funded by the Chinese Communist Party (CCP) at colleges and universities, including this one!

Since 2005, more than 100 Confucius Institutes have opened in the United States. These Institutes, many offering for-credit courses in Chinese language and culture, are largely staffed and funded by an agency of the Chinese government's Ministry of Education—the Office of Chinese Languages Council International, better known as the Hanban. The Hanban also operates similarly organized Confucius Classrooms at 501 primary and secondary schools in the United States. Overall, the United States has more Confucius Institutes and Confucius Classrooms than any other nation.

The Chinese government helped North Korea defy UN sanctions using their shipping industry to unlawfully export North Korean coal.

Did you know...

There are 1 million Turkish Muslims trapped in Chinese "re-education" camps who are at a high risk for Coronavirus due to the conditions in which they live, but despite public pressure, the Chinese government has taken no discernable steps to protect these minorities.

Did you know...

Unlike the dollar and the pound, which are traded freely, the Chinese yuan has its value set every morning by the Chinese Central Bank, which is controlled by the Communist Party. The Party also artificially disrupts the world trade system through regulations discriminatory to foreign countries and engaging in cyber theft

WHAT DO CONFUCIUS INSTITUTES DO ON OUR CAMPUS?

The Hanban has shrouded Confucius Institutes in secrecy. At most Institutes, the terms of agreement are hidden. They employ Chinese teachers who are vetted, selected, hired, paid by, and held accountable to the Hanban. Course materials used at Confucius Institutes are provided directly by the CCP.

Confucius Institutes are unabashed propaganda outlets. While teaching Chinese language and culture, they also teach:

- The CCP's "Great Leap Forward" and "Cultural Revolution" were necessary for progress and didn't result in the deaths of as many as 65 million people
- The Tiananmen Square crackdown was justified and didn't result in the murder of more than 10,000 peaceful protestors
- The ethnic cleansing of Tibetans, the cultural genocide and active gulags for Uighurs, and the repression of democracy in Hong Kong have never happened
- China doesn't steal intellectual property and economic secrets, doesn't sanction endless cyberattacks, and is not the world's most renowned polluter and cause of global environmental destruction

Confucius Institutes also serve as de facto prison watchtowers for the thousands of Chinese students who enroll in U.S. schools. CCP operatives at the Institutes keep the students under constant surveillance, monitoring every step they take and every word they speak or write. If a student says or writes something that isn't officially-sanctioned, the student may be forced back to China or worse yet—their family back in China may be punished.

WHY SHOULD YOU CARE?

China and the CCP are one of the largest violators of human rights and dignity in the world.

The CCP is the world's **greatest perpetrator of human rights violations**, especially against Muslims and other religious minorities.

The CCP **represses free expression** of the peaceful people of Tibet.

The CCP **props up nearly every vicious dictatorship in the world** and supports the nuclear and chemical weapons programs of murderous, villainous governments in North Korea and Iran.

The CCP regularly **spies on all its citizens, tracks their every move**, and denies them unfiltered access to the internet.

The CCP routinely **imprisons, tortures, and kills** peaceful protestors.

The CCP has built the largest military in the world not to defend itself, but to **intimidate and bully its peaceful neighbors** including Taiwan, Japan, and Tibet.

The CCP **lied to the entire world about COVID-19**, allowing it to spread unchecked around the world while inside China it was taking drastic actions to isolate the sick, even going so far as to use blow torches to seal people inside their own homes.

The CCP **operates an actual police state**, banning all criticism of the police and the government and disappearing anyone who dissents.

WHAT CAN YOU DO TO HELP?

It's essential that we track and expose China's interference on American college campuses.

Help spread the truth about Confucius Institutes and counter their activities to ensure the CCP's lies and provocations don't go unchallenged.

- The State Department has designated the Confucius Institute U.S. Center a foreign mission of the PRC, calling it "an entity advancing Beijing's global propaganda and malign influence campaign on U.S. campuses."
- The Department of Education and the State Department **have warned** all colleges and universities and K-12 schools that Confucius institutes are "tools of malign PRC influence and dissemination of CCP propaganda on U.S. campuses."

- FBI Director Chris Wray has testified that the FBI is **investigating espionage** stemming from Confucius Institutes across the country.
- Already the U.S. Government has opened investigations of more than 180 researchers at 65 American colleges and universities for theft of research, withholding information about funding sources and conflicts of interests, and violating the confidentiality of peer review. Many of these researchers are associated with China's "Thousand Talents Plan." At least 13 professors have been indicted, including Dr. Charles Lieber, Chair of Harvard University's Chemistry and Chemical Biology Department. As Dr. Michael Lauer, deputy director of extramural research at the National Institutes of Health has said, "This is not xenophobic racism, this is not targeting and this is not stigma. This is real theft of research." In other words, NIH is not investigating Asians because they are Asian, but rather because China is conducting itself as an outlaw nation.

WRITING an op-ed for your school or local newspaper

The CCP and its puppet Confucius Institutes are a **legitimate threat to freedom seekers** and oppressed people everywhere. Together, **we can expose them** before they further distort the truth.

"These Confucius institutes are literally up to no good. Its purpose? To keep tabs on students and to press pro-Beijing causes."
